A wide variety of high quality shopfront solutions in London and the UK

At Brit Shop Fitters you will find a highly experienced, skilled or qualified team of shopfront fitters driven by quality, high standards and great customer care.

Each time we approach a new task we do so with a fresh view in mind, considering the aesthetic design, security, accessibility and budget of our customers and clients. We look at your business needs, what type of business you are in and the kind security that you need.

Our doors and shopfronts can then be tailored to meet your exact needs and specifications. We offer a year's guarantee on our shutters and 10 years on our windows and we're registered with Fensa to provide our customers complete peace of mind.

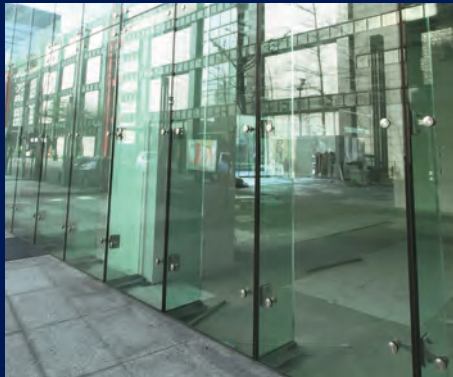

Brit Shop Fitters continuously strives to offer each customer the level of service we would want for ourselves.

Services

Brit Shopfitters provides a wide range of services to meet the needs of a broad variety of commercial, civic and residential premises. We are Fensa registered, which means all of our products are manufactured to meet the highest standard of security and quality. We offer a 10 year guarantee on all windows and one year on shopfront shutters.

Our full range of services include:

- Shopfronts
- Shutters
- Bi-folding Doors
- Windows
- Curtain Walling

Bi-folding Doors

We design and fit Bi-folding doors to match any specification our customers require. The advantage of a Bi-fold door is that it can be built to fit the opening entrance of practically any width or height of your commercial or residential property.

Bi-folding Doors offer fantastic options for businesses such as hotels, care homes, schools, nurseries, shops and even offices – in fact anywhere where you might want to create a sense of space and accessibility. Many customers choose to have Bi-folding Doors installed when they want to make it easier to access the inner or external areas of a commercial or residential premises, such as front, side or back gardens, terraces, pools, saunas and other opening spaces.

Windows

We offer a wide variety of window designs, suitable for shopfronts, reception areas or office entrances. Aluminium windows are long-lasting and durable and you will be delighted with the range we have to choose from. Aluminium is also lightweight yet strong.

Our aluminium windows can be tailor-made to suit your requirements and come in a choice of colours with a variety of door designs and door handles, glazing bars and mullions, and clear or tinted glazing to suit all tastes.

Our range of aluminium windows include:

- Casement Windows
- Tilt & Turn Windows

Shopfronts

The front of your shop is vital to both the success of your business and its security. You will therefore want a shopfront design that makes customers and clients feel welcomed but also offers adequate levels of safety and security during both opening and closing hours. Shopfronts that look inviting, meet

your budget and can be installed quickly, whether you are looking for replacements or a totally new installation.

The Shopfronts we design and install include:

- Aluminum Shopfronts
- Timber Shopfronts
- Toughened Glass Shopfronts
- Curtain-walling Shopfronts

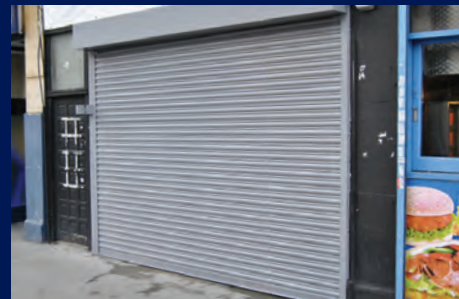

Shutters

Our shop Shutters are designed to add enhanced and reinforced security for your business out of hours. When you shut the shop for the night our shutters are working to keep your premises and assets safe. They are reinforced with metal or steel to offer protection against fire as well as illegal entry. At Brit Shopfitters we're able to design, build and install shop shutters quickly and to any specification you require.

We supply and fit the following types of shop shutters:

- Solid Shutters – which offers total invisibility from the externals
- Punched & Glazed Roller Shutters – which can range from a low to higher level of visibility from the externals

- Perforated Roller Shutters – the patterned structure provides a secure but see-through feature so products can be still viewed
- Rolling Grills – these offer the maximum amount of visibility while still providing a high level of security
